

Strategic plan 2021-2024

INTRODUCTION AND SUMMARY

Updated 2021.04.22

From the President

EPF was founded in 1977 and has since then been a powerful umbrella federation grown from 4 to 36 national member federations.

To develop European powerlifting to what we see today has been a democratic process and lot of work by numerous officials, lifters and volunteers throughout more than 40 years.

All these years, EPF rules have been improved step by step to keep up to the standard that IPF, IOC, WADA and we as EPF members require. The goal has all the time been to improve, streamline and develop powerlifting to a popular and professional “sport for all” with high ethical standards.

This Strategic Plan is a long-term plan and will be a guideline for all EPF officials and member nations. Cooperation and support from all member nations is crucial if we shall reach our goals.

In 2020 and 2021, the Covid-19 pandemic slowed down or stopped the competition and training activities. In the administration, this period has given the opportunity to work with sponsorship besides the daily administration.

Since the last update of the Strategic plan (2019), at least *five* important goals have been reached.

One is signing in 2 large sponsor contracts (Rogue Fitness and A7 Fitness inc.) which secure better economy for EPF in the next 4 years. In general, a better economy makes it possible to reach many of the goals listed in this Strategic plan.

Second is that a Market strategy plan has been established and a professional *Marketing Consultant* has been signed in.

Third is that increased economy ensures that up to 4 championships will be professional streamed yearly.

Fourth is that a part time *Media Secretary* has been employed which will help to reach more of the goals listed in the Strategic plan. Professional media work will be essential in the development of our sport to make it better known and to highlight our lifters.

Fifth is that the *European University cup* has been established and a mutual agreement between EPF and EUSA (European University Sports Association) has been signed.

In addition, progress has been made to reach or improve more of the strategic goals.

One is the standard of our championships. Our organizers have been more and more professional as the standard has raised considerably over the past years.

By guidelines, support and requirements from the EPF administration, the goal is to reach a standard we see at IOC recognized sports. It is my wish and hope that all parts of the EPF organization will cooperate to achieve the goals specified in this EPF Strategic Plan 2021-2024.

Arnulf Wahlstrøm, EPF President

STRATEGIC PLAN: OUTLINE

Our Strategic Plan for 2021-2024 highlights the EPF's opportunities and challenges. The Strategic plan outlines our pathway to our long term goals. The 2021-2024 EPF Plan document is relatively schematic. This serves to highlight the key issues the EPF has to deal with and to focus our work.
